### Waterfowl

One of the largest staging areas for blue and snow geese in the US, this area is also a nesting ground to thousands of local ducks and hosts thousands of mallards and other species during the fall migration. Encompassing hundreds of small sloughs, potholes and lakes, this geographic area provides unsurpassed quality waterfowl hunting.

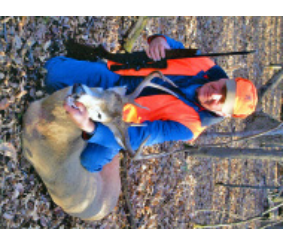

### Fishing

Devils Lake offers some of the best fishing in North America: Walleyes, Northern Pike, Perch, White Bass and the occasional Muskie.

### Deer Hunting

Large tracts of sunflowers and other small grains provide excellent forage and shelter for deer. Mature bucks often field dress between 180 and 200 pounds. This habitat accounts for the state's large whitetail population.

### Snowmobiling

### Wildlife Viewing

### Birdwatching

### Water Sports
